# ATTORNEY SPEAKS FOR CHANCELLOR Man Charged With Making

Creed M. Fulton Gives Interview in School Case.

CHARGES TO BE ANSWERED

Superintendent May Not Be at Trial in Person.

SENATOR GALLINGER TALKS

Order Issued Preventing Temporarily the Searching of Board Records by Chancellor's Lawyers.

Superintendent William E. Chancellor arm of Leckle. Fulton & Cox was at the branklin building this morning for the was denied access to them by Secretary who said that before he could give out, at the suggestion of Prof. Bar-Evermann, he must await the permission of the president of the board attorney. All three members of the law firm mentioned are working upon the ase, and it is understood that an attempt will be made to answer fully every specification in the formal charges filed against the superintendent.

At this juncture a statement made by Senator Gallinger, chairman of the com-mittee of the Senate which reported the present school law to the Senate, is causconsiderable comment. Senator Gal-

am extremely solicitous about the sit-"Tam extremely solictious about the sit-uation in our public schools here. I would be very glad to co-operate in any way that is possible to bring about a better understanding between the superintend-ent and the board of education, but whether or not that is a possible thing I am not prepared to say." am not prepared to say.

#### Mr. Fulton's Statement.

Creed M. Fulton, one of Dr. Chancellor's attorneys, discussed the case freely

to a Star reporter this morning. "Dr. Chancellor wants a fair and impartial board to investigate the charges against him," said Mr. Fulton, "and to pass judgment upon him., He believes that the present board is absolutely hostile to him, which hostility he believes has arisen by reason of the fact that he has protested against the board's violating the law and against certain members usurping the functions of the board itself and the board usurping the authority of the superintendent. He knows that certain members of the board have repeatedly held secret meetings in violation o the law to decide upon schemes. These meetings were held also without notice

to him or his knowledge. The public will readily see the unique position in which Dr. Chancellor is placed by the present board of education. The board, being hostile to the superintendent, has already passed judgment and decided what its decree shall be. It ha constituted itself into a complaining witness, into a prosecuting attorney, into ourt and jury to pass upon the truth

fulness of its own charges.
"With the animus and bias that possesses the board, the formality of prefer-ring charges and citing him to trial be-fore it is really farcical. Dr. Chancellor desires the fullest investigation of course, and is anxious to appear and answer any complaint in his own person.

## Ready With Evidence.

"He is ready to produce abundant evidence to establish in any unprejudiced mind that he has discharged his duties faithfully and kept strictly within the law; that the charges against him are false, gridiculous and frivolous, and that most everything which he actually did, as set forth in the definite specifications of the board's charts, were authorized by

The charges made against the superintendent are so voluminous that we have not had time to formulate any definite statement with respect to each and every one of them, but we will glad to give such a statement later

will say, however, that when the finally made known to the public in al. Its phases, and Dr. Chancellor has been a fair and impartial hearing, the will know, as it does not now t, what difficulties he has encountered and what he has had to con tend with since the first day he ar-rived in the District.

public will also know, as it doe ow suspect, how much several mem of the board of education have con tributed toward making it possible for the superintendent of schools of this cirto discharge his official duties to the schools and to the people of the District and as required of him by law.

## Declines to Talk.

McNamara, counsel for the board, would Dr. Chancellor's attorneys, in the meantime preparing to substantiate fully its Asst. Supt. Percy M. Hughes, It is also understood that t

god that the board realizes as well as Dr. Chancellor's attorapparent anomalous situation in which it is placed in having to act as complaining witness, prosecuting attorney and court and jury in the case, but that it understands the law to make this absolutely necessary.
